

```
export interface ComponentTestFixture<T> {  
  compile(componentParameters?: Partial<T>): Promise<void>;  
  detectChanges(checkNoChanges?: Boolean): void;  
  get(type: Type<any> | InjectionToken<any>): any;  
  readonly instance: T;  
}
```

TESTING NGRX

```
export interface ComponentTestFixture<T> {  
  compile(componentParameters?: Partial<T>): Promise<void>;  
  detectChanges(checkNoChanges?: Boolean): void;  
  get(type: Type<any> | InjectionToken<any>): any;  
  readonly instance: T;  
}
```
