

```
function burgerReducer(state, action) {  
  switch (action.type) {  
    case '[Burgers] Add One':  
      return [...state, action.burger];  
    default:  
      return state;  
  }  
}
```

```
function burgerReducer(state, action) {  
  switch (action.type) {  
    case '[Burgers] Add One':  
      return [...state, action.burger];  
    default:  
      return state;  
  }  
}
```

```
function burgerReducer(state, action) {  
  switch (action.type) {  
    case '[Burgers] Add One':  
      return [...state, action.burger];  
    default:  
      return state;  
  }  
}
```
